

GARY REPORT

Flip To Make It Clean!

Tommy Tillman, Jim McManus, and myself are each in Africa now, joining Caleb, Walter, and others. But, something most noteworthy took place in this gathering at its very outset. The order of this three-part list here is not the order it needed to be, and evidences to be a noteworthy change.

Tommy, our black brother, was supposed to have flown in first on Sunday evening, December 2. But everything pertaining to the order of his arrival went topsy-turvy! As he was going through TSA security in Atlanta, Georgia, things went into slow motion. It should have been a routine scan of his luggage and all at baggage security, but he had to go through there twice, seemingly without cause, extending that process out so crazily wrong that he was forced to miss his flight. They offered him crazy ticket options as well that were totally unacceptable to the point that he was ready to just fold the entire thing and go back home. But in the final hour, a South Korean lady flipped it all back to being right and got him out on the next flight.

On the morning of December 3, Jim and I arrived in Africa at our scheduled time, and found out that Tommy was delayed. So, that evening he and I stayed in our lodging while Caleb and Walter went to the airport to get Tommy. But, come 10:00 PM they had not arrived and I fell asleep and went on to bed. Strangely though, about 11:30, I awoke and got up to find out that there was still no sign of Tommy. I repeatedly called Caleb, but there was no answer, and by now was quite disturbed that this three-stranded cord that we saw the Father sovereignly performing, began to unravel! Without contact from anyone, all we could assume was that Tommy did not show up and Caleb and Walter went on home. That was NOT a good testimony at all! But just when we had given up, in the door they all walked!

So, why did all of this happen? With all of the craziness of Tommy's experience in Atlanta, and the brothers getting him something to eat, they finally arrived just before midnight—and instead of Tommy being first to arrive, he was in fact last. And he told us that during that process he even had a strange feeling that it was supposed to be that way, and beyond his control the Father sovereignly performed it. And with this, we realized that the entire arrival sequence was flipped!

In hindsight, we recognized that Jim and I were flipped as well. From the beginning of our departure from Atlanta, Georgia, Jim was out front, to the point that it was noticeable. But when we got on our flight from Paris, France, they strangely had us in separate seats, and in the end Jim sat at the very back of the plane, with me proceeding him upon departure. So, instead of the usual, I was the first to pass through customs and enter into our destination of Nairobi, and Jim followed. Then after a long and most anxious delay, just before midnight Tommy joined us. Tommy's initiating experience had been so bizarre that he was ready to just go back home; and we marveled that this

concluded with the Father performing an obvious flip! Instead of it being a Tommy, Jim, Gary arrival, it was a Gary, Jim, and Tommy arrival.

So, why did Yahweh flip this at the outset of this most important trip? Why else does He flip things? As are His established ways, He flips things to make them clean, and herein testified to the reversal of the curse on the black man. Why the reversal of this curse upon our entry into black Africa? This would be most important!

The curse on the black man of Africa goes all the way back to the cross. When Yahshua grew faint in bearing it, it was in fact a black man from Africa who was conscripted to bear it. What did this mean for the black man? Just as Yahshua was pressed into bondage, affliction, and sorrow, so the black man of Africa was conscripted to bondage, affliction, and sorrow. They too had to bear the “cross”!

Similarly, we read in Zechariah 3:9: “For behold, the stone that I have set before Joshua; on one stone are seven eyes. Behold, I will engrave an inscription on it,’ declares Yahweh of hosts, ‘and I will remove the iniquity of that land in one day.’” And whose image was engraved on that stone? As addressed [here](#), that engraving is nothing less than that of Satan! And the promise is that the curse on the black man of Africa, whose continent bears the very image of Satan, will be removed! And based on the flip that Yahweh performed with black man Tommy, Jim, and myself, the day of the removal of that curse could very well be upon us. And, it is noteworthy that the most dramatic and clearly evidenced testimony of this removal by splitting and flipping, involved none other than the offspring of a black woman from Africa—Ephraim and Manasseh, whose mother was a black woman from Africa! (Read [here](#).)

Furthermore, at the nations level, America suffered the identical fate. America means “heavenly kingdom.” And America, like the kingdom of God upon first being introduced to man, was cursed when they brought the black man of Africa here in slavery. So, what could all of this mean for us here in Africa? Our hope is that with this testimony of the flip relative to Tommy as a black man, and this being my second trip here, we are going to have the same outcome—not just at the nations level but at the heavenly kingdom level! We need to see the curse on the kingdom and on this nation removed, even as it was with Manasseh and Ephraim who were blessed in the reversal to Ephraim and Manasseh! The curse was removed from those two so that they were sovereignly added with the twelve tribes; and we today need the curse to be removed from not only Africa, but the cursed church because it was “before the time” of the kingdom!

On Wednesday, December 5, we will have our first of three sequential teaching sessions—December 5 and 6, then on the seventh, and finally the third teaching on the eighth and ninth. We will see what the Father performs.

May Yahweh be glorified!

Gary
