

# GARY REPORT

## Adding The Fifth

In the last “Gary Report,” I noted that I was communicating with Paul in England, assessing what is the best time for me to fly there and see what the Father might do in our hope for the latter rain. I can now let you know that I am flying into Manchester on January 24. Of course I cannot help but think of the twenty-four elders and the hope of the fulfillment of the latter twelve today, just before the coming of Immanuel. This clearly must occur first.

Let me share with you something that a long-standing Bride sister shared with me. She noted that in 2010 I went to England [for the first time](#), and then to Africa three times. What she noted was that that first trip to England attested to the first-bird first Remnant, and my three trips to Africa represented Christianity if given 3,000 years. Yahweh showed me many years ago that Africa is Christianity. (That does not diminish the Bride work that is taking place there today.) And today she wonders if perhaps my second trip to England represents the victory afforded by the second Remnant. She noted: “It follows the pattern you repeatedly reveal over and over where Yahweh splits things to make them clean. This is not just the split, but also showing what would happen if 3,000 years were given (your 3 trips to Africa), and in hope what we shall receive given your 2 trips to England.”

What she shares is most hopeful, particularly in light of what happened the first time I went to the UK. That is the five-and-two testimony addressed in the [January 3 “Gary Report.”](#) You will want to begin listening to that Report at 43 minutes and 21 seconds. What we see is that my visit with Paul could quite possibly be the needed fifth, affording the fulfillment of that hope-filled conclusion. Here again, when I saw the GREAT significance of that five-and-two, I did so upon being aroused from my sleep. But then I went back to sleep and when I awoke recalled the five-and-two, but not the wonder of that! I hope it is time that we now see and experience the GREAT significance of this! Personally, I have waited a long twenty-six years for this in my own breach from what I experienced in 1994 at the ranch. And most notably and significant, the only woman to live there was none other than **Bonnie England**, along with her **five** girls! And now I am looking at adding/contacting the fifth person in England.

And by the way, if you read the blog posting “[Five and Two](#),” you will see how all of this experience in the UK unfolded, leading to our understanding based on the vital [covenant with the many](#). It was a two and five, which has to be flipped. And noted there, the attesting five people were cut short to four, and I hope that my return to England will now afford us that vital link—the fifth. This is especially relevant in that I am legally a part of the first Remnant, a part of the five—three and a half years of Yahshua’s ministry and the year and a half of the first Remnant. Hopefully by adding the fifth person it will afford us today the connection to now receive the two later-rain

years—the five and concluding **two**. That would make complete sense now that I consider this more fully per the covenant with the many. This is indeed hopeful.

In closing, on another note, Rian Burger prepared for publishing five of the teachings we held while in Africa, and they have been loaded onto YouTube. We still need to put the links on the website, but here are the URLs for your viewing.

<https://youtu.be/Jnth8-QITzw>

Obviously, even though I will soon be going to England to meet and be with Paul and those who want to know more about the Bride and what the Father is doing, the work continues in Africa. So let me urge you to continue your needed support and go to our online [contribution page](#) and help.

I am most grateful for what we see the Father doing at this time and look to Him to complete what He began in June of 1994, and even 2010. May He be praised!

Blessings,

Gary
