

## GARY REPORT

### Important Update and Hopeful Revelation

It has been a while since I have provided a Report, but it is not due to lack of activity. Building the wall on the Bride property continues to make progress, and Bride teachings in and outside of Kenya continue. Walter is now teaching 326 Muslims in Entebbe, Uganda, and this following other like teaching progress in Uganda.

Let me now give you an update on building the wall. And keep in mind that all of this work has amazingly been provided by volunteers. By [clicking here](#), you can see a walk-around by Caleb and John Jowie, explaining the wall, as well as pointing out the functioning solar and water towers. And, it appears that this work, along with every aspect of this construction, is highly intercessional. Let us examine this important point.

Regarding what we see taking place in Rongo with the Bride property, I am reminded of the words of Yahshua when He declared: “In My Father’s house are many dwelling places; if it were not so, I would have told you; **for I go to prepare a place for you. If I go and prepare a place for you, I will come again and receive you to Myself, that where I am, there you may be also**” (John 14:2-3).

We must ask: If this principle of preparing a place in order to literally unite us in one location is true with regard to Yahshua, then would it not have like relevance with us today? In other words, do we need to prepare a place for Him, so that where we are, He may be here also? As I [have noted](#), this is the true Field of Dreams. And significantly, the movie was just [recently celebrated](#). “If you build it, He will come.” Is it now time for our dream to come true?

So I ask: Why did Yahweh give us this property, which is so entirely prophetic of the kingdom? And, what work are we thereby accomplishing? All along the way, this work in Rongo has been highly prophetic. First there was the incomplete first Remnant (the initial incomplete house), then the Body of Christ (the Bride Hall), and finally the fulfilling second Remnant (the receipt and completion of the beautiful Bride house). Then there came the solar panels, followed by the beautiful artesian well that will never run dry. And now we are left with the final task of building the wall that encompasses the house, the solar panels, and the well. So we ask: Is in fact this physical work—which He has continually provided for again and again and again—is it a portal, or even the way which in some measure prepares for Yahshua’s return? Is it a like crying out for the fulfillment, even attesting to its fulfillment? I ask, why else would He do all of this? This is certainly our hope, for naturally we did not need all of this. And the sacrifices have been very great, including the loss of four dear, dear men, and two young men.

As planned from the beginning, Christianity has failed for two thousand years. And only now can Yahshua return, and only with His bride. Christianity is the afflicted Body of Christ, and we DO NOT need another thousand years of that! So, as Yahshua went away so as to prepare a place for us, I hope that He is affording a physical place in Rongo so that where we are, He will

be there also—"If you build it, He will come." It is a parallel type, so that when we complete our labors, He completes His. The timing and fulfillment of this is to be seen, but without a doubt this physical work in Rongo is a clear type of the spiritual. And it is entirely AMAZING how He has provided for this work, a work that is far beyond anything I or we could even imagine! And now I invite you to join in to help complete it.

Like a runner who gives all he can when completing the last lap of a race, please give all you can at this point. Take us over the finish line. [Click here](#) to give, and thank you.

Gary

PS: This update from Walter just came in:

Hello brother. I have been in Uganda for 3 days now and have managed to teach a total of 986 brothers in 3 meetings (616 Christians and 370 Muslims). Today was a very special day for me. In my first meeting I met 3 Muslim Sheikhs who were totally opposed to Bride teachings. Today they came to listen to the teachings after most of their members renounced the Muslim faith to join the Bride. After I finished the teachings, they came to me and apologized that they were wrong to oppose the teachings on the first day. They have resigned from their posts and are now leading the Bride faith. Today is one of the days that make me feel very proud of teaching the Bride. I will be travelling to Congo for 3 days of teachings.
